

Testimoni AURA NUR Sugar Salt Lip Scrub

Before i tried her lips scrubs, i skipped my routine of 2 days once scrub just to test the outcome. I was a bit taken aback when a hint of pink appears while scrubbing. My mind voice "gone la will end up with artificial colored lips". To my surprise the moment i washed off, the color went off to reveal natural looking lips. It removes dead cells & treat damaged lips as well. Usually, after scrubbing i will apply generous amount of lip balm as scrub tends to dry the skin out but, with her scrub no more dry lips. Smooth,supple and healthy lips naturally & what's more it heals and to me that matters. Tq my dear i love your Aura lips scrub 🍷
